

Joun Abbas

FULL STACK & ANDROID DEVELOPER

Bhakkar, Punjab, Pakistan / [+92 344 9890302](tel:+923449890302) / jounabs52@gmail.com

PROFILE	Full stack and Android developer with a year of professional experience at AiroxLab, building responsive websites and Android applications. I work across the stack — JavaScript and Next.js on the front end, PHP, MySQL and Supabase behind it, Flutter and Dart on mobile — with a focus on database-driven features and reliable, user-focused software.		
SKILLS	WEB	HTML5 · CSS3 · JavaScript · Next.js	
	MOBILE	Flutter · Dart · Android	
	BACKEND	PHP · SQL · MySQL · Supabase	
	TOOLS	Git	
EXPERIENCE	Senior Website & App Developer AiroxLab		2025 — Present
	- Build and maintain responsive websites with HTML5, CSS3, JavaScript and Next.js, and Android applications with Flutter and Dart. - Model and query SQL, MySQL and Supabase databases to power database-driven application features. - Work on application performance and day-to-day reliability, delivering user-focused software to clients.
